DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 22nd May, 1913, based on the Indian Daily Weather Reports of the period.

The week has been an unusually wet one. An abnormal distribution of pressure caused a strong inflow of humid winds from both the Bay and the Arabian Sea, and widespread rainfall occurred in northern and central India. Rain fell in all parts of north-east India, the United Provinces, the east and north Punjab, Rajputana, Central India and the Central Provinces. A change set in at the close of the week and weather became more settled.

In Burma rainfall was somewhat lighter than usual and in the Peninsula was only local in character.

2. *Burma*.—Rain fell daily except in the central districts.

Northeast India, including Orissa.—Nearly every station received some rain during the week. Rainfall was fairly general on the 15th, 17th, 18th and 20th in Assam, on the 17th, 18th and 20th in Bengal, on the 16th and 17th in Chota Nagpur and on the 17th and 20th in Bihar.

The United Provinces, Central India and the Central Provinces.—Rainfall occurred in all parts of the division, and was nearly general in the United Provinces on the 19th and 20th and in Central India on the 20th.

Northwest India.—Nearly general rain fell in the east and north Punjab on the 17th and 18th, in the east Punjab on the 19th and 20th, and in east Rajputana on the 18th, 19th and 20th. Showers also occurred in Kashmir, west Rajputana and north Gujarat.

GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
17th May 1913.

Burma.—The week has been generally wet. Reaping of spring crops and sowing of summer crops are in progress. Standing crops are in good condition. Cattle are generally healthy. Prices are fairly steady but high.

Assam.—Light to moderate rain has fallen in most districts and has done much good to standing crops but more rain is needed in the Surma Valley and in the centre of the Brahmaputra Valley. Sowing of early and late rice and of jute, plucking of tea and planting of sugarcane continue. Harvesting of spring rice is nearly finished in Sylhet. Prospects are good. The average price of common rice is stationary. Cattle disease is reported from almost every district.

Bengal.—During the week thunderstorms accompanied by rain continued throughout the Province. Although sowings of autumn crops were retarded in April their conditions are now very favourable. Sowings are approaching completion in the eastern districts of the Province and are being vigorously prosecuted in the western districts. Prospects of standing crops are now favourable. More rain is however desirable in the districts of Murshidabad, Dinajpur and Rangpur. The average price of rice shows a tendency to rise. Scarcity of fodder and water is still reported from parts of Tippera and Midnapore. Cattle disease is reported from nine districts.

Bihar and Orissa.—The rainfall was general over the Province, the fall being generally light. Threshing of spring crops is completed. Preparation of lands for early and late autumn crops continues. Sowing of paddy and other crops has begun and that of jute is in progress. Newly planted sugarcane and vegetables are doing well. The price of common rice is still rising. The condition of cattle is on the whole good but cases of cattle disease are reported from parts of Orissa and Chota Nagpur. The supply of fodder and water is sufficient except in parts of Hazaribagh. Agricultural prospects in the Feudatory States of Orissa are on the whole good.

United Provinces.—General rain fell throughout the Provinces, being heaviest in the Himalayan, Western Submontane, North Central, Central Submontane, South Oudh and Eastern Submontane districts. It has benefited standing crops in places. In other districts slight damage has been caused to crops by rain and hail. Sowing of autumn crops and cotton is in progress in places. Standing crops are doing well and prospects are generally good. Test works have been discontinued in Mirzapur. In the Benares State the numbers on relief works have risen to 2,556 and 314 persons are still in receipt of gratuitous relief. Cattle disease is sporadic in the Central Doab and North Central districts but is diminishing elsewhere. Fodder and water are sufficient. Prices are fluctuating with a slight downward tendency in the north and west and a slight upward tendency in the south and east.

Punjab.—Light to heavy rain has been general. The spring crop is being reaped and threshing continues. Grain and straw on threshing floors have been damaged by rain in several districts. The outturn on irrigated land is average to good and on unirrigated land below average. Sowings of extra spring crops and of sugarcane, cotton and fodder continue and are normal in area. The rainfall was beneficial to standing crops and will permit of sowings of cotton and millets on unirrigated land. Cattle are generally healthy and fodder is sufficient except in a few areas. Prices remain high.

North-West Frontier Province.—The week was rainless except for slight showers in Bannu and in the Kulachi tahsil of the Dera Ismail Khan district. The weather is hot and at times close. Standing crops are generally good on irrigated lands but average on unirrigated areas. Sowings of autumn crops are in progress. Harvesting of spring crops is proceeding and the outturn is expected to be normal. Cattle are in good condition. Fodder and water are generally sufficient. Prices are high but are falling in Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 10 to 29 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Udhampur tahsil. Fodder is insufficient in some tahsils.

Kashmir.—It rained three times during the week. A hailstorm is reported in Muzufferabad but it caused no damage to standing crops which are in good condition. Autumn sowings are in progress. The condition of agricultural stock is good. Fodder is sufficient. Prices are normal.

Rajputana.—The weather was cloudy and hot. The rainfall was more or less general. The maximum fall was 144 cents in Bikaner and the minimum 15 cents in Merwara. Harvesting of spring crops is still proceeding in some places. Land is being prepared for autumn crops in Mewar, Shahpura, Partabgarh and Ajmer-Merwara. Standing crops are in good condition and prospects are good. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high and stationary. The cotton crop in Jaipur is flourishing.

Central India.—The rainfall was partial in Bhopal and Baghelkhand and slight in Bundelkhand. The weather is cloudy but cool. Harvesting of spring crops has been completed in Bundelkhand and in all parts of Baghelkhand except Rewah. Land is being prepared for autumn sowings in Indore, Bundelkhand, Malwa and Bhopawar. The outturn of crops is average in Bhopal and good elsewhere. Cattle disease prevails in parts of Bhopal, Baghelkhand, Bundelkhand and Bhopawar. The fodder supply is sufficient. Prices are rising in Bhopal and Pathari and are normal elsewhere in the Bhopal Agency. Prices are above normal in Baghelkhand, fluctuating in the Mehidpur district of Indore and steady elsewhere.

Central Provinces.—The weather was cloudy and stormy. Rain fell all over the Provinces except in Seoni, Balaghat and Akola. The quantity registered at head-quarters ranged from 4 cents to 1½ inches. The rain was accompanied by hail in parts of Betul and Amraoti. Threshing and winnowing of spring crops have still to be completed in a few districts. Preparation of land for sowing of the next season's crops and repairs to field embankments continue. The supply of water is generally sufficient except in parts of seven districts. Fodder is dear or scarce in Saugor, Chhindwara, Nagpur, Wardha, Raipur, Akola, Amraoti and Buldana. Cattle are in good condition. Prices fluctuated slightly.

Feudatory States.—During the week ten States had rain not exceeding 1 inch. Ploughing and manuring of fields were in progress. Prices were fairly steady.

Bombay.—Slight rain fell during the week in parts of Kanara, East Khandesh, Satara, the Karnatak, Mahi Kantha and Kolhapur. Cotton picking is nearing completion. Preparation for autumn crops is in full swing. The fodder supply is generally sufficient except in Sukkur, Hyderabad and Ahmednagar. Cattle are generally in good condition except in Ahmednagar where they are poor and in Cutch where they are deficient. The supply of water for drinking and irrigation is deficient in parts of the Deccan and Bijapur. Prices are high but steady. The public health is generally good. Grain stocks are sufficient.

The weekly report on the famine and scarcity is as follows:—Distress is acute in six talukas. There is little wandering and no emaciation. Six kitchens and fifteen poor-houses continue to give relief. People on relief are generally in fair condition.

The public health is generally good. Land revenue suspensions are being granted and *takavi* is being advanced freely for fodder and wells. The water-supply is failing everywhere and measures are being taken for its improvement. Charitable funds are being utilised for the relief of weavers and for eight cattle kitchens. The numbers on gratuitous relief for the week ending the 17th May were:—Ahmednagar 14,629. Poona and Sholapur 147. Total 14,776.

Hyderabad.—A few showers fell during the week in isolated parts. Lands are being prepared for autumn crops throughout the Dominions. Harvesting of late rice is finished. Measures to alleviate distress in the affected talukas of the Aurangabad and Bir districts continue. The total number of labourers employed during the week ending 10th May was 57,645. Fodder scarcity prevails in 26 talukas, water scarcity in 50 and cattle disease in 6. Prices:—wheat $6\frac{1}{4}$, coarse rice $5\frac{1}{2}$, and *juar* $10\frac{1}{4}$ seers per rupee. White *juar* is selling at 12 seers per rupee in Hyderabad City. The highest price in districts is 7 seers in Karimnagar and the lowest 17 seers in Adilabad.

Mysore.—Slight rain fell in parts of the State. Prices of food grains are generally steady. Markets are well supplied. Cattle are healthy. Water and fodder are available.

Coorg.—The rainfall was almost general. Ploughing for rice has commenced in parts. Prices of food grains are high. Water and fodder for cattle are sufficient. The public health is fair.

Madras.—The rainfall was good in Ganjam and the Vizagapatam littoral, *nil* in Nellore, Chingleput, Chittoor, South Canara, Travancore and the Deccan except Bellary and light to fair elsewhere. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane is nearing completion. The outturn is fair to normal. Sowings of dry crops, paddy and sugarcane are proceeding normally in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices are stationary.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
24th May 1913.

Burma.—The rainfall was light in the dry zone and moderate elsewhere. Ploughing for winter rice and upland crops, transplanting of summer rice and reaping of spring rice are progressing normally. Cattle are healthy and pasturage is sufficient. The price of unhusked rice is steady though a little above normal.

Assam.—There has been heavy rain in the Surma Valley and at both ends of the Brahmaputra Valley in the centre of which and in the Lungleh subdivision more rain is still desirable. The rainfall has facilitated cultivation and improved prospects of tea in the Surma Valley. Sowing of early and late rice and of jute, plucking of tea and planting of sugarcane are in progress. Harvesting of spring rice is finished in Sylhet and the outturn is good. The average price of common rice has risen by one per cent. Cattle disease is reported from most districts.

Bengal.—During the week rain fell all over the Province. The fall was heavy in some parts of Eastern Bengal and generally light to moderate elsewhere. Sowings of jute and other autumn crops are now well forward in the eastern districts and are progressing. Weeding continues briskly in the western districts. Prospects of standing crops are favourable. More rain is however still wanted in the Murshidabad district. The price of rice shows a slight tendency to rise. Fodder and water are still reported to be scarce in parts of Midnapore. Fodder scarcity is also reported from parts of Tippera. Cattle disease is reported from nine districts.

Bihar and Orissa.—The rainfall was general over the Province, the fall being generally light. Preparation of lands for the next season's crops still continues. Sowing of paddy, *marua* and other autumn crops has commenced. Newly planted sugarcane and vegetables are doing well. The average price of common rice is almost stationary as compared with that of the previous week. The condition of cattle is on the whole good but stray cases of cattle disease are reported from seven districts. The supply of water is sufficient. Fodder is also sufficient except in parts of Sambalpur and Hazaribagh. Agricultural prospects in the Feudatory States of Orissa are on the whole good.

United Provinces.—General rain fell throughout the Provinces, the fall being more than 1 inch in the Himalayan, Western Submontane, the Upper Doab and North Central districts and in parts of the Central Doab, Central Submontane, the Lower Doab, South Eastern and Eastern Submontane districts and in the Benares State. It has benefited sugarcane but has caused slight damage to extra crops and to crops on threshing floors in many districts. Sowings of autumn and fodder crops and of cotton continue in places. Preparation of land for autumn crops is generally in progress. In the Benares State the numbers on relief works have risen to 3,208 and 314 persons are still receiving gratuitous relief. Cattle disease is again severe in Bundelkhand and is sporadic in the north and west. Fodder and water are sufficient. Prices are fluctuating generally.

Punjab.—Light to heavy rain fell in most districts. Spring crops are being reaped and threshing continues. Grain and straw on threshing floors have been damaged by rain and floods in several districts. The outturn on irrigated land is average to good and on unirrigated land below average. Extra spring crops are being harvested in some districts. Sowings of sugarcane, cotton and fodder continue and are normal in area. The rainfall was beneficial to standing crops and will permit of sowings of cotton and millets on unirrigated land. Cattle are generally healthy and fodder is sufficient except in a few areas. Prices remain high.

North-West Frontier Province.—Rain fell during the week throughout the Province except in Peshawar. The weather is hot and at times cloudy. The condition of standing crops is generally good on irrigated lands and average on unirrigated lands. Sowings of autumn crops continue. Harvesting of spring crops is in progress and the outturn is expected to be normal. The condition of cattle is good. Fodder and water are generally sufficient. Prices are high but are falling in Dera Ismail Khan.

Jammu.—Good rain fell during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 10 to 28 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Udhampur tahsil. Fodder is insufficient in some tahsils.

Kashmir.—The rainfall during the week was 1 inch 2 cents. Standing crops are in fair condition. Autumn sowings are in progress. Prices are normal. Fodder is sufficient.

Rajputana.—The weather is cloudy and hot. General rain fell throughout Rajputana and Ajmer-Merwara, the maximum fall being 580 cents in Bikaner and the minimum 41½ cents in Merwara. Harvesting of spring crops is proceeding in a few places. Land is being prepared for the sowing of autumn crops in most places. Prospects are good. Cattle are in good condition. Fodder and water are sufficient. Prices are generally high and stationary.

Central India.—The rainfall during the week was over 1 inch in Indore, Malwa and Bhopawar, partial in Baghelkhand and slight in Gwalior and Bundelkhand. The fall was insufficient in Malwa. The weather is clear and windy. Harvesting of spring crops has been completed in Gwalior. Land is being prepared generally for autumn sowings. The outturn of crops is good in Gwalior, Indore and Bhopawar. Cattle disease prevails in parts of Gwalior, Baghelkhand, Bundelkhand and Bhopawar. The fodder supply is sufficient. Prices are above normal in Baghelkhand, fluctuating in parts of Indore and steady elsewhere.

Central Provinces.—The weather has been occasionally cloudy and stormy during the week. Nagpur had 1 inch of rain. Elsewhere light showers not exceeding 80 cents were received. Threshing and winnowing of spring crops still remain to be completed in places. Ploughing of fields and construction of field embankments continue. Fodder is dear or scarce in eight districts. Agricultural stock is in good condition. Rice became cheaper by 2 seers per rupee in Drug. Variations were unimportant elsewhere.

Feudatory States.—During the week light showers were received in thirteen States. Preparation of land for the sowing of next season's crops continues. Prices remain practically unchanged.

Bombay.—Slight rain fell during the week in parts of Ahmedabad, Panch Mahals, Kanara, the Deccan, the Karnatak, Baroda, Palanpur, Mahi Kantha, Rewa Kantha and Kolhapur. Preparations for autumn crops continue. The fodder supply is sufficient except in Sukkur, Hyderabad and Ahmednagar. Cattle are generally in good condition except in Ahmednagar where they are poor and in Cutch where they are deficient. The supply of water for drinking and irrigation is deficient in parts of the Deccan and Bijapur. Prices are high but are fluctuating slightly. The public health is generally good. Grain stocks are sufficient.

*The weekly report on the famine and scarcity is as follows:—*Distress is acute in six talukas. There is little wandering and no emaciation. Six kitchens and fifteen poor-houses continue to give relief. People on relief are generally in fair condition. The public health is generally good. Land revenue suspensions are being granted and *takavi* is advanced freely for fodder and wells. The water-supply is failing everywhere and measures are being taken for its improvement. Charitable funds are being utilised for the relief of weavers and for eight cattle kitchens. The numbers on gratuitous relief for the week ending 24th May were:—Ahmednagar 14,337. Poona and Sholapur 147. Total 14,484.

Hyderabad.—Rain fell during the week throughout the Dominions. Lands are under preparation everywhere for the next season's sowings. Fodder is still being imported into the affected talukas in the Aurangabad and Bir districts. The total number of labourers employed during the week ending 17th May was 54,749. Fodder scarcity prevails in 30 talukas, water scarcity in 50 and cattle disease in 5. Prices of grain show little or no variation.

Mysore.—The rainfall during the week was good in Bangalore, Kolar, Tumkur and Kadur and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Ploughing and sowing operations are in progress. Prospects of the season are good. Cattle are healthy. Water and fodder are available.

Coorg.—The rainfall during the week was general. Ploughing for rice continues. Prices of food grains are high. Water and fodder for cattle are sufficient. The public health is fair.

Madras.—The rainfall was light in Kistna, Kurnool and Banganapalle, *nil* in Sandur, Tinnevely and Travancore and fair to good elsewhere. Standing crops are fair to good. Harvesting of dry crops, paddy and sugarcane are nearing completion. The outturn is fair to normal. Sowings of dry crops, paddy and sugarcane are proceeding normally in parts. The condition of cattle is generally good. Fodder and water are generally sufficient. Prices are stationary.
